The Path to Prosperity:
The Success Story of Bill Gates

It was essential for Bill Gates to heed the lessons of failure compared to celebrating the joy of success. This great entrepreneur, who has established Microsoft as the biggest software company, is a dropout student from Harvard. Furthermore, he has also been known for his self-owned business, Traf-O-Data, one of the biggest failures in history. The entire investment of Bill Gates vanished, and unfortunately, even education could not be completed. However, his keen desire and passion for computer programming-based stuff led him to establish the biggest software company with the brand name 'Microsoft'. From the founding of Microsoft to his tireless efforts to improve the world, Gates' journey is a source of inspiration for all.

simulated interview

An initiative by T&P Cell to give the students an experience and training on the various aspects of an interview, making them prepared for the professional field.

22nd MAY 2024
NEMCARE GROUP OF INSTITUTIONS, MIRZA
trainingandplacement@ngiguwahati.in

On 22nd May 2024, The Training & Placement (T&P), NGI conducted a “Simulated Interview” as a part of the grooming sessions to help students practice answering common interview questions confidently and professionally for the M.pharm 4th Semester students.

- The interview session was led by a team of expert from different professional fields. The Interviewing Panel consisted of Dr.Saurav Dey, Scientist, Guwahati Biotech Park, Dr. Soomnath Chakraborty, HOD Production , NATCO Pharma, Dr. Manish Majumdar , HOD Pharmaceutical Chemistry, NGI, Mrs. Juti Rani Devi, Asst. Professor, NGI and Mr. Kangkan Deka Asst. Professor, NGI. A total of 18 number of students participated in the interview. The simulating interview enlightened the students in articulating their expertise, receive valuable feedback, and gain confidence in presenting themselves as qualified candidates for respective jobs. Upon concluding the practice interview process, the students grasped the fundamental purpose of simulated interviews and their value in advancing vocational prospects.

Activities

Grooming Sessions

- On May 11th 2024 ,The Training & Placement (T&P) ,NGI conducted a “Grooming Session” for the outgoing 8th semester students. The session was led by Dr. Angela Priyanka Gogoi, Asst. Professor, MHA, NGI, Mirza. A total of 4 students had participated in the session. The focus of the session was on building students' confidence, polishing their presentation, and ensuring they can put their best professional selves forward during interviews.

Hospital Visit

- On 25th May 2024, Masters in hospital administration (MHA) 2nd semester students successfully completed a hospital visit to Apollo Excelcare, Guwahati accompanied by Dr. Angela Priyanka Gogoi, Asst. Professor, MHA, NGI, Mirza to enhance their practical understanding of healthcare operations. The visit included comprehensive tours of the all the departments in the hospital. A Q&A session with the hospital's management team covered administration, healthcare policies etc.. This interactive visit bridged the gap between theoretical learning and practical application, preparing students for future roles in healthcare management.

Counselling Sessions

- On May 31st 2024, a total of 10 students attended the counselling session conducted by the T&P (Training and Placement) cell for the second-semester students of the Master of Hospital Administration (MHA) program. The session was conducted by Mr. Biprojit Paul, Asst. Professor, Dept. of Pharmaceutical Chemistry, NGI. The session was informative and motivating for the students, helping them envision a bright future ahead. Such interactions play a crucial role in guiding and encouraging students as they progress through their academic journey and prepare for their professional careers.

Outreach activities

- The Department of Food Nutrition and Dietetics at NITS, NEMCARE Group of Institutions, Mirza, organized an outreach program at Kochpara D Anganwadi Centre, Mirza on May 21, 2024. The second-semester students conducted an assessment of the +nutritional status of infants, young children, and mothers present at the Anganwadi Centre.

- On 21st May, 2024 A total of 19 students from 1st year Diploma in Pharmacy went for a one day visit to Govt. Ayurvedic College and Hospital, Jalukbari. The team was led by Mr. Kangkan Deka Asst. Professor, Dept of Pharmacognosy, NGI and Mr. Zaremo Lotha Asst. Professor, Dept of Pharmaceutics, NGI. The visit began with touring the Herbal Garden accompanied Dr. Biswajyoti Bora BAMS,MD (Ayu)(Asst. Professor) & Dr. Naba Kumar Hazarika BAMS,MD (Ayu)(Asst. Professor)

His Message to students

A major predicament a child faces as he grows up is the choice of his or her career. This gets more pronounced as the child reaches higher classes. Though many children's career path is influenced by teachers, parents but it is the child who probably is most aware of his strengths and weaknesses. As a child reaches higher class , he or she has to choose his preference - Science, Commerce or Arts stream which generally decides his career path.

These days there are plethora of opportunities or choices whether in the Government sector, Corporate or self-employment. But at the same time the environment has become very competitive , hence a child must be focused and determined but it does not mean he has to be self-centered. He should always remember that while perusing his objective, he is a part of society and has some obligation to society.

Any career option is good as long as he or she enjoys the job. contribute to society as well as manage adequate earnings for himself and the family. Every job offers challenges and opportunities, no jobs should be considered high or low .

The issue of Government jobs or a corporate job does come to the mind of a young job seeker. Usually, a Government job is preferred as it gives a secure livelihood, gives more opportunities to serve the society. However, Government jobs have become extremely competitive these days.

On the other hand, corporate jobs which are also equally competitive gives tremendous opportunities to demonstrate one's capabilities. In the Government job, pay and promotion, especially at junior position, are generally based on the length of service. On the contrary , in the corporate field growth in terms of pay and promotions mostly depends on performance. Corporate job especially at the higher level is survival of the fittest and many get stressed out. One doing exceedingly well are hired by other companies with better pay and privilege.
